

ELECTRIC TUMBLE DRYER, 43.5 / 55 KG - THREE-PHASE GDZ 1090 E

Ref: 0911.12.102
 Grandimpianti

Reversing drum function to assure always a uniform drying action even with big linen.

Frame made of eposidic painted steel, with drum in stainless steel AISI 304.

Easy of loading and unloading process thanks to the large door opening angle (180°) and the big load diameter. On request, left opening.

Safety device to stop the dryer if the door is opened while on cycle.

Microprocessor with 11 languages: additional languages available on request. The user can easily manage the drying temperature, the time and the residual moisture. There are up to 30 drying programs that can be easily modified and named.

Cooling cycle at the end of the program to avoid linen shocks together with anti- wrinkle process to make the linen ironing easier.

Easy maintenance thanks to the self diagnostic function with error displaying. The HELP menu is dedicated to the technician who can find here the trouble shooting of the most common error. In addition, the main devices correct working status can be tested directly from the keyboard.

Management cost control: the total and partial energy consumption can be displayed on the microprocessor screen.

Optional front and/or back tilting on request.

FEATURES

Capacity load (1:25); (1:20)	43.5 kg; 55 kg
Capacity drum	1089 l - Ø 1202x960 mm
Door	Ø 890 mm
Drum rotation	25
Noise	< 74 dB
Dimensions (WDH)	1360x1700x2260 mm

Weight net	813 kg
Weight gross	882 kg
Control - PLC	Yes
Power supply	380 - 415 V 3 N ~ 50/60 Hz
Electric power - Heating	58.5 kW
Electric power - Drum motor	2.2 kW
Electric power - Total	60.7 kW
