

Speed Pomegranates

Easy, fast and non-stop pomegranate juice.

Specifications			
Fruit type	Pomegranates	Type of consumption	Very high
Diameter of fruit	75–95 mm (S Kit 65–85 mm)	Feeder capacity	20 kg 44 lb
Fruits per minute	30 pomegranates / min	Waste capacity	Up to 100 l
Speed	1 juice in 8"	Bottle holders	38 mm / 36 mm (Opt.) / 34.4 mm (US)
Glass and/or bottle	-	Measurements Width Depth Height	805 x 680 x 1774 mm [Slim]: 674 x 679 x 1774 mm
Voltage	230 V / 50 Hz	230 V / 60 Hz	115 V / 60 Hz
Power output	325 W 0.44 HP	420 W 0.56 HP	280 W 0.38 HP

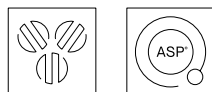

Introducing the first high-performance commercial juicer designed to juice any type of pomegranate, making it extremely easy to do something not that easy. Pomegranate juice in a matter of seconds.

One of the first challenges we encountered was the blade itself, as it had to be able to cut the toughest husks, hence the choice of titanium; we designed the juicing system to perform at its best with the new fruit; we re-designed the PulpOut system to be equally effective with seeds and to eject them faster; and we made non-stop production of up to 100 kg of pomegranates possible without any intervention at all.

At 30 pieces of fruit per minute, the name Speed is almost an understatement... but its Up tap easily and flawlessly tackles that amount of fruit. Easy to use and very practical thanks to its ergonomic design and bottle holder. Not to mention the high-quality materials and all the details a Speed always features.

Features:

Colour:

Models:

All-in-One Wide

All-in-One Slim

Acc. and more info:

Automatic PulpOut system

Designed specifically for pomegranates. Triple filtration with conveyor belt to remove seeds and husk, improving performance and juice quality.

Titanium blade

Its strength guarantees excellent cutting and durability.
