Glass and/or bottle	Up to 120 mm   All-in-One 255 mm	Measurements Width   Depth   Height	480 x 550 x 890 mm All-in-One 480 x 550 x 1695 mm
Voltage	220-240 V   50-60 Hz	115 V   60 Hz	
Power output	380 W   0.51 HP	320 W   0.43 HP	

Versatile Pro, complete and very easy to use. Its feeder capacity (16 kg), with a front door that facilitates the loading of fruit, provides maximum autonomy in a very small space. It includes the new PulpOut system to juice more fruit without interruptions. Up to 150 kg.

Thanks to the 1Step M Kit, it is possible to remove the juicing unit, featuring ASP® antibacterial technology, in a single step. Also dishwasher safe. Hygiene and convenience hand in hand. And with the S Kit you could also offer lime and lemon juices to your customers.

Switch between its two operating modes – self-sevice and professional – and set the number of fruits per juice from its digital display.

Two models to choose from depending on your needs. The table-top model for cafes and catering chains. The All-in-One model, with podium included and capacity for 52 litres of waste, for self-service spaces in hotels, filling stations, supermarkets or greengrocers.

# Versatile Basic

Naturally automatic.

Specifications			
Fruit type		Oranges, lemons, limes, tangerines	Type of consumption
Diameter of fruit		65-81 mm (45-67 mm with S Kit)	High
Fruits per minute		22 fruits / min	Feeder capacity
Speed		1 juice in 10"	10 kg   22 lb
Glass and/or jar		Up to 165 mm	Waste capacity
Voltage		220-240 V   50-60 Hz	10 l (2 x 5 l)
Power output		380 W   0.51 HP	Measurements
			Width   Depth   Height
			480 x 550 x 855 mm
			115 V   60 Hz
			320 W   0.43 HP

Versalite Basic follows Zumex's philosophy on ease of use. A single button controls both the start and end of juicing. But it's even a little more convenient.

Thanks to its built-in feeding system, with capacity for 10 kg of fruit, it can produce about 20 juices before needing more fruit. Make better use of the time between one load of fruit and the next while serving the best freshly-squeezed juice without distractions.

No distractions and no bacteria. The new Top Performance juicing unit, featuring ASP® antibacterial nanotechnology, has been improved to squeeze more juice out of each piece of fruit. Hygiene and total performance.

The anti-drip tap makes it possible to pour the juice directly into the glass or jar. And no matter what, its built-in waste container collects fruit residues so your business is always spotless.
